Claims 1, 2, 4-11, 13-20 and 22-27 are presented for examination. However, the claims are allowable over the prior art of record, alone or in combination, for reasons mentioned below:

The following is an Examiner's Statement of Reasons for Allowance:

The claimed invention is directed to "an interrupt scheme for an input/out device". The examiner has done complete search and found no prior art of record, alone or in combination, teaches or fairly suggests the limitation, "wherein the event data structure identifier is determined by accessing a message vector mapping structure using the processor identifier and an event code" in combination with other claimed elements as claimed in independent claim 1 and similar limitations in independent claims 6, 10, 15, 19 and 24. Dependent claims 2, 4, 5, 7-9, 11, 13, 14, 16-18, 20, 22, 23 and 25-27 further limit the subject matter of respective parent claims. Therefore, the invention as claimed in claims 1, 2, 4-11, 13-20 and 22-27 is considered allowable because combinations recited in the claims are patentably distinguished from the prior art of record.

Any comments considered necessary by applicant must be submitted in response to this office action to avoid processing delays. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
